

Pathways HealthConnect

Your Local Connection to Good Health

What's Pathways HealthConnect?

A free program that helps community members connect with the local services and support they need to be healthy. We serve Southwest Washington's Clark, Klickitat and Skamania counties.

Who Can Participate?

- ✓ People with Medicaid (Apple Health)
- ✓ People who need help connecting to services and support
- ✓ People with complex healthcare needs

What Can Pathways HealthConnect Help With?

- Medical, dental or mental health care
- Housing
- Transportation
- Substance Abuse Help
- Childcare
- Parenting Education
- Food and Clothing
- Utility Help
- Financial Help
- Education and Employment
- Domestic Violence
- And more!

How Does it Work?

You're connected with a Community Health Worker, or CHW.

The CHW will meet with you in your home or in the community.

You'll receive help connecting to services and support along the path to better health.

What's a CHW?

CHW's are community members who know their way around healthcare, social services and other programs. CHWs help their neighbors and community members get the support they need.
